Revenue Points for Orka Cafe

- > Wellness breakfast lunch and dinner meals.
- > All day wellness beverages.
- > Retail product.
- > Home delivery via likes of Uber Eats, Zomato, Swiggy etc.

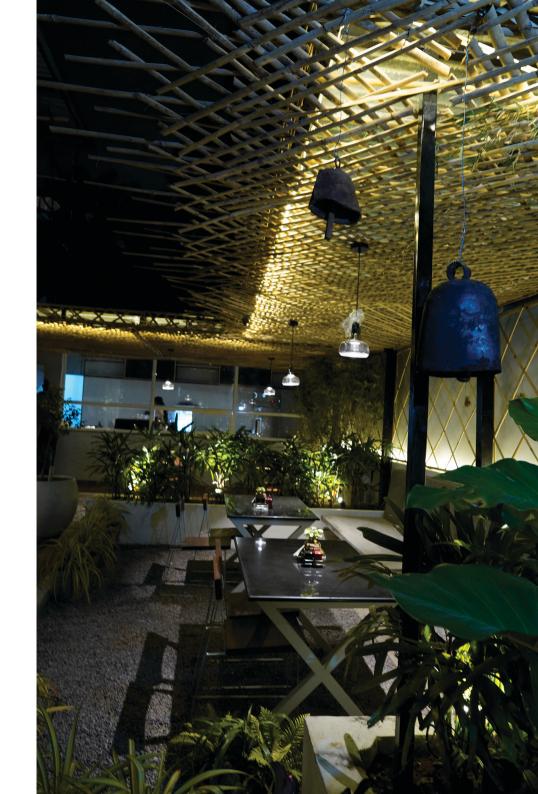

Revenue Points for Fix My Nutrition

- > Customised fitness meal plan option.
- > Genetic Testing Service.
- > Independent Online Ordering and Customisation equipped Webpage.
- > Chisel and Medifit Gym Cafe or Kiosk Catering.
- > Daily delivery before 10 am morning.

The Fix My Nutrition does not interfere with Cafe Operations as the meals for FMN are prepared late night after cafe operation ends. This way we create a operation that has zero lean time and max revenue potential

Another revenue point is our right to setup and run catering at select IT Company parks and workspaces which is served by the Medifit Consultant Group. The have close to 250 plus centers which include giants like Infosys, TCS, Samsung, Intel, Google etc. We are official nutrition partners to both Chisel Gyms and Medifit Consultants globally.

This is a unique business model with multiple revenue points making Orka Cafe a Blue Ocean offering.

Heyy!

Came across your page on insta last week and I visited the cafe the same day.

I had to force my friends to come with me, they were a little skeptical about the healthy food concept and now Orka is their favourite hangout spot.

In love with the place, can't wait to come over again. &
